PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 1st September 1914.

READ—

Paragraph 2 of Government Order No. R. 9767-76—L. R. 430-13-50, dated the 20th June 1914, directing that payments from the Village Improvement Fund to Village Committees should be made only on work bills passed by the Deputy Commissioner.

2. Letter No. 35, dated the 10th July 1914, from the Deputy Commissioner, Chitaldrug District, representing that the procedure which prescribes that the amount should be paid only on work bills passed by the Deputy Commissioners greatly retards the progress of works as the villagers' contribution cannot, under the present arrangement, be made available to them for expenditure whenever it is deposited in the Treasury; and that the procedure is moreover inconsistent with the spirit of the scheme, which contemplates that as far as possible such works should be done by the agency of the villagers; and proposing that the villagers' contribution may be paid to them as soon as the works are started and that the Amildars and Sub-Division Officers may also be empowered to pass work bills within certain limits.

No. R. 1843-52—L. R. 10-14-24, DATED BANGALORE, 1ST SEPTEMBER 1914.

ORDER THEREON.—Government observe that there is much force in the Deputy Commissioner's observations and agree with him that the works under the Village Improvement Scheme should, as far as possible, be carried out by the villagers themselves. To facilitate this, Government are pleased to direct that the Officers who are competent to sanction grants-in-aid for works may also sanction advances in respect of each work not exceeding 25 per cent of the estimated cost at a time, and that such advances should always be adjusted within one month from the date of grant.

2. Government consider that no other change in the rules already laid down is necessary.

Government Order No. R. 4122-7—L. R. 102-09-8, dated 5th January 1911, appointing a Committee consisting of the Revenue Commissioner as President, the Chief Engineer, the Superintendent of Revenue Survey, the Deputy Commissioner of the Bangalore or the Mysore District and Mr. C. Srikanteswara Aiyar as members, to formulate proposals for regulating the expenditure under the Irrigation Cess Fund.

2. Government Order No. R. 4533—L. R. 162-09-10, dated 4th February 1911, directing that Mr. Y. Srinivasa Rao, Deputy Chief Engineer, be appointed a member of the Committee in place of the Chief Engineer.

3. Government Order No. R. 61-6—L. R. 507-11-5, dated 21st October 1912, appointing Mr. K. Krishnaiengar, Deputy Chief Engineer, a member of the above Committee in place of Mr. Y. Srinivasa Rao, retired.

READ ALSO—

Letter No. 3379, dated 25th August 1913, from the Revenue Commissioner in Mysore, submitting a copy of the Proceedings of the Committee and stating that Mr. C. Srikanteswara Aiyar, who was unable to attend the meeting of the Committee, has fully concurred with their recommendations.

2. Unofficial Note No. 144, dated 19th September 1913, by the Chief Engineer of Mysore, making his remarks on the Committee's proposals..

No. R. 2157-68—L. R. 630-13-4, DATED BANGALORE, 12TH SEPTEMBER 1914.

ORDER THEREON.—The proposals of the Committee which are well considered are generally approved. Government are pleased to issue the following rules on the subject in accordance with the recommendations of the Committee. The rules will come into force with effect from the ensuing official year and the Budget Estimates for the year 1915-16 will be prepared in accordance with the revised rules.

(1) The district will be the unit for the administration of the Irrigation Cess Fund.

(2) Seventy-five per cent of the total amount collected each year in a district will be set apart exclusively for expenditure in that district, the balance of the realizations amounting to twenty-five per cent being formed into a general fund, to allow of supplementary grants being made when necessary in exceptional cases in addition to the ordinary allotment by districts.

(3) The District Board should appropriate the district allotment, as far as possible in proportion to the receipts under this head for each taluk so that works in each taluk may receive their due share of funds and attention.

(4) A triennial programme of urgent and important works in each taluk should be made by the Amildar in consultation with the Taluk Board and submitted to the Deputy Commissioner of the district who will approve of it in consultation with the Executive Engineer and the District Board.

(5) The Seventy-five per cent quota of the realizations in each district will be devoted to

(i) the ordinary repairs of masonry and stone work to major and minor restored tanks and

(ii) the expenditure, in whole or in part, on account of the maintenance charges of river irrigation channels.

(6) The amount of 18 per cent now charged to the irrigation cess for establishment, tools and plant will be waived.

(7) There will be 9 accounts in the Comptroller's books, one on account of Irrigation Cess Fund of each district and one for Irrigation Cess Fund General. The appropriation within the district according to the receipts in each taluk will, however, be an administrative arrangement not liable to audit, check or control.

(8) Extraordinary repairs due to breaches and heavy damages to tanks, channels, anikats, *etc.*, may, with the special sanction of Government in each case, be debited to State Funds. The Cess Fund should be used only for ordinary repairs and maintenance.

Revenue (Land Revenue), dated 12th September 1914.

2. The cost of maintenance of the river channels in Mysore and Hassan Districts will hereafter be debited to the Irrigation Cess Fund only to the extent decided by Government in each case. A certain percentage in the case of these channels may be met from State Funds. The Chief Engineer is requested to submit proposals separately on this point in consultation with the Revenue Commissioner for the orders of Government.

3. The proposal of the Committee to place the minor tanks to be restored on the same footing as the major ones, has no bearing on the present question of the utilization of the Irrigation Cess Fund and is, therefore, reserved for separate consideration along with the question of the revision of the scheme for the restoration of minor tanks, which is engaging the attention of Government.

4. The thanks of Government will be communicated to the members of the Committee for their comprehensive proposals on the subject.

Correspondence ending with letter No. 2516, dated 27th August 1914, from the Revenue Commissioner in Mysore, submitting for orders the application of Byre Gowda, Patel of Bendiganahalli, Hoskote Taluk, for the grant of a loan of Rs. 1,000 or Rs. 500 for opening a grain shop for the sale of rice and ragi to the poor people on account of the unfavourable seasonal conditions during the current official year.

No. R. 1897-9—AGRI. 7-14-4, DATED BANGALORE, 4TH SEPTEMBER 1914.

ORDER THEREON.—Government are pleased to sanction, as a special case, the grant of a loan of Rs. 1,000 to Byre Gowda for the purpose mentioned above on the following conditions :—

(1) That the Jodi Srinivasapur village in the Sulebale hobli, Hoskote Taluk, belonging to him should be taken as security for the loan.

(2) That the loan should be repaid with interest at 4 per cent per annum within one year from the date of payment of the loan; and

(3) That the loan amount should be utilized within one month from the date of payment solely for importing grain.

2. The Deputy Commissioner, Bangalore District, is requested to make himself sure that the security is free from incumbrances, to take the necessary bond from Byre Gowda and to see to the recovery of the loan as per agreement.

Para 3 of this office letter No. R. 63—Agri. 35-13-64, dated 3rd July 1914, to the Revenue Commissioner in Mysore, calling for the submission by the Deputy Commissioners of special weekly reports on the seasonal conditions in each district until there is perceptible improvement.

No. R. 2148-56—AGRI. 1-14-35, DATED BANGALORE, 12TH SEPTEMBER 1914.

ORDER THEREON.—As the special reports submitted by the Deputy Commissioners of Hassan, Kadur and Shimoga Districts show that the seasonal conditions have improved considerably in those districts and continue to be favourable, it is sufficient if, in future, they submit their special reports once a fortnight instead of weekly as hitherto.

2. The Deputy Commissioners of other districts are requested to continue to submit special weekly reports until further orders.

Government Order No. R. 1301-10—Agri. 1-14-8, dated the 18th August 1914, requesting the Conservator of Forests in Mysore to make every effort to meet the demands of the raiyats for compressed hay and arrange to collect it wherever possible, intimating the quantities available to the Deputy Commissioners.

2. Letter No. 2561, dated the 28th August 1914, from the Revenue Commissioner, forwarding letter No. R. C. 232, dated the 25th August 1914, from the Deputy Commissioner, Bangalore District, reporting that in a consignment of sample hay sent by the District Forest Officer, Shimoga, to the Deputy Amildar of Closepet and received by the latter on the 23rd August 1914, the grass was found to be fermented and unfit for use, and has therefore been ordered to be destroyed.

No. R. 2189-98—Agri. 1-14-34, dated Bangalore, 14th September 1914.

Order thereon.—As it is reported that the sample hay supplied by the Forest Department is unfit for use and as the recent rains have stimulated the growth of grass in many parts of the State, the Conservator of Forests is requested to withhold the despatch of further consignments of compressed hay until sufficiently dry hay can be collected in the forests. The Conservator is requested to keep himself in touch with the Deputy Commissioners of Districts and be in readiness to meet requisitions for hay should there be need for it.

Subject No. 183 of the Representative Assembly of 1912, representing that the Land Improvement and Takavi Loans Rules may be amended so as to provide for a maximum loan of Rs. 2,000 for sugar cane cultivation. (Printed as accompaniment No. I.)

2. Letter No. 12396, dated 3rd April 1914, from the Revenue Commissioner in Mysore, submitting the opinions of the Deputy Commissioners of Districts together with his own on the above representation. (Printed as accompaniment No. II.)

No. R. 1914-22—AGRI. 138-12-4, DATED BANGALORE, 4TH SEPTEMBER 1914.

ORDER THEREON.—The maximum amount that may be borrowed under the existing rules for the purchase of seed sugar cane being only Rs. 200, it is suggested that power should be reserved in the rules to raise this limit in special cases to Rs. 1,000 and sanction loans up to that amount for the benefit of persons who desire to grow sugar cane on a large scale. Government are pleased to approve of the recommendation.

2. The appended notification effecting the necessary amendments in the Rules will accordingly be published.

3. The loans should be sanctioned subject to such conditions as would ensure the amounts being utilized only for *bona fide* cultivation of sugar cane on a large scale.

NOTIFICATION.

No. R. 1923—Agri. 138-12-5, dated 4th September 1914.

The Government of His Highness the Maharaja of Mysore are pleased to direct that the following amendments be made in the Rules framed under Section 10 of the Land Improvement Loans Regulation (No. IV of 1890) and Section 194 of the Land Revenue Code (Regulation IV of 1888) published with Notification No. R. 4319—Agri. 91-08-4, dated 2nd January 1909 and as amended by Notifications Nos. R. 5932—Agri. 3-12-4, dated 18th April 1913, and No. R. 2306—Agri. 38-13-2, dated 12th September 1913 :—

(I) Add the following note under Rule I (B) (i) :—

NOTE.— In special cases for cultivation of sugar cane on an extensive scale, loans may be granted up to a limit of Rs. 1,000 for the purchase of seed sugar cane.

(II) In Rule V, para 5 (ii), mark the existing item as (*a*) and add the following thereto (*b*) for special loans, granted under Rule I (B) (i) Note.....four years.

By Order,
D. M. NARASINGA RAO,
Offg. Secy. to Govt., Gen. & Rev. Depts.

ACCOMPANIMENT I.

SUBJECT No. 183.
Improvement of sugar cane cultivation.
Mr. Ramanuja Iyengar, Gubbi Taluk.

Summary of discussion.—As represented last year, sugar cane cultivation is in a very backward condition in Mysore. Government should therefore help for some time the raiyats who wish to grow sugar cane by advancing money to them. Under the Takavi Rules, the maximum amount of loan that may be taken for the purchase of sugar cane is only Rs. 200. This is not sufficient to cultivate even one acre of sugar cane. It is also payable within one year. The rules may be amended so as to fix a maximum of Rs. 2,000 for loans taken for sugar cane cultivation.

Reply of Government.—Will be considered. Rs. 25,000 have been sanctioned and placed at the disposal of Mr. Chatterton for installing suitable machinery in 3 selected places, where sugar cane is produced on a large scale, to serve as an object lesson.

ACCOMPANIMENT II.

No. 12396-11, dated Bangalore, 3rd April 1914, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to your letter No. R. 7827—Agri. 138-12-2, dated 19th June 1913, regarding Subject No. 183 of the Dasara Representative Assembly of 1912 about the maximum amount of loan that may be granted under the Takavi Rules for the purchase of sugar cane seeds, I have the honor to forward herewith the marginally noted communications containing the opinions of the Deputy Commissioners of Districts on the same subject and to state as follows:—

No. 154, dated 2nd September 1913 (Bangalore).
No. 89, dated 5th August 1913 (Kolar).
No. 106, dated 11th August 1913 (Tumkur).
No. 195, dated 8th December 1913 (Mysore).
No. 27, dated 18th July 1913 (Hassan).
No. 226, dated 22nd August 1913 (Shimoga).
No. 61, dated 18th July 1913 (Kadur).
No. 148, dated 19th September 1913 (Chitaldrug).

2. All the Deputy Commissioners except those of Bangalore, Hassan and Tumkur are of opinion that the rule which prescribes a maximum limit of Rs. 200 for advances that may be granted for purchase of seed sugar cane requires no alteration. The Deputy Commissioner of Mysore states that the maximum amount referred to above is sufficient to purchase seeds for planting five to six acres of land that this is more than what an ordinary raiyat is capable of cultivating with sugar cane and that no applications have been received for the grant of loan of more than Rs. 200 for this purpose. Even in the Shimoga District where good seed cane is said to be dearer, the Deputy Commissioner states that Rs. 200 would suffice for getting the seeds required for planting seven or eight acres of land. I agree with these Deputy Commissioners in holding that under ordinary circumstances advances not exceeding Rs. 200 would suffice.

3. In special cases where it is proposed to cultivate sugar cane on an extensive scale advances may be granted for the purchase of seed sugar cane up to Rs. 2,000 as prayed for by the member who mooted the subject.

Dated Chikmagalur, 18th July 1913, from K. Krishna Iyer, Esq., Offg. Deputy Commissioner, Kadur District, to K. S. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, Bangalore.

With reference to your letter No. 40512 of the 14th July 1913, requesting to be informed whether there is any necessity for increasing the maximum amount of loan that can be given for the purchase of seed sugar cane, as represented in Subject No. 183 of the Dasara Representative Assembly Proceedings of 1912, I have the honor to state that the maximum amount that can be advanced for

Revenue (Agriculture), dated 4th September 1914.

the purpose is Rs. 200 under the rules framed under the Land Improvement Loans Regulation, issued with Government Notification No. R. 4319—Agri. 91-08-4, dated 2nd January 1909, and that this amount was repayable within one year. It is now represented that the maximum loan amount be raised to Rs. 2,000 to improve the sugar cane cultivation.

2. I consider that the amount of loan to be paid, *viz.*, Rs. 200 for the purchase of more sugar cane seed will be sufficient; and since in accordance with Government Order No. 5933-31—Agri. 3-12-3 of the 18th April 1913, Rule V (B) has been altered, the loan for the above purpose being made repayable in two years, no further amendment seems to be called for. But, this amount will not be sufficient for the purchase of proper manure, and for this purpose I think another advance of Rs. 300 may advantageously be given fixing the maximum loan allowable to be Rs. 500 repayable in two years

No. 226, dated Shimoga, 22nd August 1913, from K. Matthan, Esq., B.A., Offg. Deputy Commissioner, Shimoga District, to K. S. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, Bangalore.

With reference to your letter No. 405-12, dated 14th July 1912, calling for my opinion on Dasara Representative Assembly Subject No. 183 of 1912, *re* the raising of the maximum amount of loan now granted for the purchase of seed sugar cane, I have the honor to state that the price of good seed sugar cane in this district is reported to be between Rs. 8 and Rs. 10 per thousand, and that about three thousand canes are planted in an acre of wet land. The maximum amount of loan granted under the present rules for this purpose being Rs. 200, it suffices for the purchase of seeds sufficient to plant an extent of 7 or 8 acres.

2. To proprietors of large estates who desire to grow sugar cane on an extensive scale, this amount of loan may not be of much help. In their case it may be desirable to raise the maximum to Rs. 1,000. The limit of Rs. 2,000 suggested by the member appears to be too high, as the cultivation of sugar cane in blocks of over 50 acres by individual landholders is very rare.

No. 495—3, dated Mysore, 8—10th December 1913, from A. Subramanya Iyer, Esq., B.A., Deputy Commissioner, Mysore District, to K. S. Doraswamy Iyer, Esq., Revenue Commissioner in Mysore.

With reference to your letter No. 405-12, dated the 14th July 1912, inviting my attention to Dasara Representative Assembly Subject No. 183 of 1912 and requesting to be informed if there is any necessity for raising the maximum amount of loan for the purchase of seed sugar cane I have the honour to forward herewith in original the replies received from below noted Sub-Division Officers from which it is seen that excepting the French Rocks Sub-Division Officer who recommends the raising of the maximum amount to Rs. 500 the others consider that the present limit of Rs. 200 is adequate.

Nanjangud Sub-Division Officer's letter No. 10, dated 26th July 1913.		
Mysore	do	No. 101, dated 15th August 1913.
French Rocks	do	No. 437, dated 6th October 1913.

One acre of land is stated to require about 8,000 to 10,000 seeds the cost of which varies from Rs. 2 to Rs. 5 per thousand seeds. Taking the average, the cost of sugar cane seeds for planting an acre of land comes to about Rs. 35 and the maximum of Rs. 200 now fixed is sufficient to purchase seeds for 5 to 6 acres of land which is more than what an ordinary raiyat is capable of cultivating with sugar cane. Further, no applications have been received for the grant of loan of more than Rs. 200 for the purchase of sugar cane seed. In these circumstances, I think there seems to be no necessity to raise the limit.

Letter No. 437, dated 6th October 1913, from N. Rama Rao, Esq., B.A., B.L., Assistant Commissioner, French Rocks Sub-Division, to A. Subramanya Iyer, Esq., B.A., Deputy Commissioner, Mysore District.

With reference to your memo No. 748-4, dated the 23rd July 1913, forwarding for my opinion copy of letter No. 405-12, dated the 14th idem, from the Revenue Commissioner, requesting to state whether there is any necessity for raising the maximum amount of loan for the purchase of seed sugar cane, I have the honour to state that if it sought to improve lands on which sugar cane is to be grown the case falls under clause A of Rule I (of the rules framed under the Land Improvement Loans Regulations) under which there is no limit as to the amount. If it is sought to instal machinery for extensive cultivation, a loan of Rs. 10,000 can be got *vide* Rule 2 of the Rules framed for the grant of loans generally to facilitate agricultural and industrial operations, etc., published at page 841, Part I, *Mysore Gazette*, dated 18th September 1913.

But in any case Rs. 200 is too small an amount for any operations to be conducted with advantage, and therefore the maximum amount may beneficially be raised to Rs. 500.

Letter No. 101, dated 15th August 1913, from K. Mylar Rao, Esq., B.A., B.L., Assistant Commissioner, Mysore Sub-Division, to A. Subramanya Iyer, Esq., B.A., Deputy Commissioner, Mysore District.

With reference to your memo No. 748-4, dated 23rd July 1913, calling for my opinion in the matter of raising the maximum amount of loan for the purchase of seed sugar cane, I have the honor

to state that sugar cane cultivation is not carried on to a large extent in any of the taluks of this division and that it does not appear necessary to raise the maximum amount of loan which may be advanced for the purchase of seed. It is observed however that the representation of the member who mooted the Subject No. 183 of 1912 is that a sum of Rs. 2,000 may be fixed as the maximum amount of loan which may be advanced for sugar cane cultivation generally wherein the purchase of seed is only one item of expenditure and that the rules provide for loans being granted for several purposes in regard to cultivation.

Memo No. 10, dated 26th July 1913, from the Sub-Divisional Officer, Nanjangud Division, Nanjangud, to the Deputy Commissioner, Mysore District, Mysore.

With reference to your memo No. 748-54, dated 23rd July 1913, calling for my opinion on Subject No. 183 of the Proceedings of the Representative Assembly of 1912, I have the honour to state that the maximum fixed by the rules is for the purchase of sugar cane seeds alone and not for sugar cane cultivation. If more money is wanted to make the land fit for sugar cane cultivation there is scope to get an additional loan under the Land Improvement Regulation. So, in my opinion, the maximum fixed is quite adequate. The period fixed for repayment of Takavi loan advanced for purchasing sugar cane seeds, has recently been extended to two years.

Letter No. 89, dated 5th August 1913, from P. F. Bowring, Esq., Officiating Deputy Commissioner, Kolar District, to K. S. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, Bangalore.

With reference to your No. 405-12, dated 14th July 1913, inviting my attention to the summary of discussion on Subject No. 183 of the Proceedings of the Representative Assembly of 1912 and calling for my opinion as to the necessity of raising the maximum amount of loan for the purchase of seed sugar cane, I have the honor to state that according to the existing rules contained in the Land Improvement Loans Regulation, the maximum amount of loan to be granted for the purchase of seed sugar cane is Rs. 200 and is not meant to meet the cost of cultivation. To cultivate the land with sugar cane, the raiyat is always under an obligation to lay out some more money, for which purpose he has to raise a loan from other quarters. But the probability of getting loans elsewhere to supplement the loan from Government being slight, sugar cane cultivation in consequence, has been generally on a very limited scale. Moreover, the charges to be incurred for the cultivation of sugar cane on an acre of land would come up to Rs. 150 roughly and as such the maximum amount of Rs. 200 now fixed, even though a raiyat can make use of the loan amount to meet such other charges, is not sufficient to induce them to take up to this class of cultivation in larger areas.

2. Under these circumstances, I am of opinion, that this item of granting loan for the purchase of seed sugar cane and cultivation may be included under the heading (A) under Land Improvement Loans Regulation, IV of 1890 and the sum of Rs. 200 may be made the minimum amount payable for sugar cane cultivation, as always a large outlay is required for such cultivation and the amount of such loan may be made repayable with interest within two years.

No. 148, dated 19th September 1913, from V. R. Tyagaraja Iyer, Esq., M. A., Deputy Commissioner, Chitaldrug District, to K. Dorasamy Iyer, Esq., Revenue Commissioner in Mysore, Bangalore.

With reference to your letter No. 405-12, dated the 14th July last, enquiring with reference to Dasara Representative Assembly Subject No. 183 of 1912, whether there is any necessity for raising the maximum amount of loan issued under Land Improvement Loans Regulation for the purchase of seed sugar cane, I have the honor to reply in the negative as the amount now made available under the Rules *viz.*, Rs. 200 appears to be quite sufficient for the purpose.

No. 27, dated 18th July 1913, from P. R. W. Wetherall, Esq., Deputy Commissioner, Hassan District, to K. S. Dorasamy Iyer, Esq., Revenue Commissioner in Mysore, Bangalore.

Adverting to your letter No. 405-12, dated 14th instant, inviting attention to summary of discussion on Subject No 183 of the Proceedings of the Dasara Representative Assembly of 1912, and the reply of Government thereto and requesting me to state whether there is any necessity for raising the maximum amount of loan for the purchase of seed sugar cane, I have the honor to state that, with a view to encourage the growing of sugar cane, the maximum amount of loan may be raised to Rs. 500 on proper security.

No. 106—R. C., dated Tumkur, 11th August 1913, from B. J. Kuvarasami Naik, Esq., Deputy Commissioner, Tumkur District, to K. Dorasamy Iyer, Esq., Revenue Commissioner in Mysore.

In reply to your letter No. 405-12 of the 14th ultimo, calling for opinion as to whether there is any necessity for raising the maximum of loan for the purchase of seed sugar cane, mooted in Dasara Representative Assembly Subject No. 183 of 1912, I have the honor to state that Rule I (*b*) of the Rules of 2nd January 1909 do not admit of loans for the purchase of seed grain to an amount exceeding Rs. 200, though the improvement of sugar cane cultivation on modern lines is of the nature of a special industry. As its cultivation involves large expenditure of money by way of employing labour, purchase of seeds, purchase of special manure such as green leaves, Ponge Poonac, etc., special loans may be sanctioned by Government up to a limit of Rs. 1,000 for each applicant.

Revenue (Agriculture), dated 4th September 1914.

No. B. C.—154, dated 2nd September 1913, from K. Chandy, Esq., B. A., Deputy Commissioner, Bangalore District, to K. S. Dorasamy Iyer, Esq., Revenue Commissioner in Mysore.

With reference to your letter No. 405-12, dated 14th July 1913, calling for my opinion as to whether there is any necessity for raising the maximum amount of loan for the purchase of seed sugar cane (Dasara Subject No. 183 of 1912), I have the honour to state that the maximum may be raised to Rs. 500. The period for the repayment of the loan has already been raised to two years in Government Proceedings No. R. 5923-31—Agri. 3-12-3, dated the 18th April 1913.

Government Order No. R. 7825-33—Agri. 125-08-5, dated 31st March 1909, approving of the instructions issued by the Revenue Commissioner for preparing the preliminary and final forecasts of certain important crops of the State.

2. Correspondence ending with letter No. 1621, dated the 4th August 1914, from the Revenue Commissioner in Mysore, regarding the proposed alteration in the date of submission of the two forecasts and of the units employed for expressing the quantity of the yield.

No. R. 2351-9—AGRI. 98-13-14, DATED BANGALORE, 23RD SEPTEMBER 1914.

ORDER THEREON.—Government direct that future forecasts, besides giving the outturn of paddy in pallas, should also furnish its equivalent in cwts. of cleaned rice. Similarly the outturn of the sugar-cane crop should also be expressed in tons, cwts., or lbs. of jaggory. One palla or 100 seers of paddy may be taken as equivalent to 1 cwt. and 3 lbs. of cleaned rice and one maund of jaggory to 24 $\frac{8}{13}$ lbs. avoirdupois.

ACCOMPANIMENTS.

Revenue Commissioner's review on the statements showing the losses in cattle of various kinds received from the Deputy Commissioners of Districts for the quarter ending 31st March 1914.

Recorded.

2. The accompanying consolidated statement shows the cattle mortality of the State during the quarter ending 31st March 1914, as compared with the corresponding quarter of the previous year. During the quarter under review there was an increase of 3,088 deaths over the number in the corresponding quarters of the previous year, the figures for the two quarters being 18,727 and 15,638 respectively. The increase occurred mostly under the head sickness, and was due to the prevalence of foot and mouth diseases in all the districts except Kolar and Tumkur, and of Chappe Roga in the Tumkur District.

Letter No. 2520, dated the 27th August 1914, from the Revenue Commissioner in Mysore, requesting sanction to an additional allotment of Rs. 19,000 for grant of takavi advances in the Bangalore District, as the whole of the money placed at his disposal in Government Order No. R. 53-62—Agri. 35-13-63, dated 3rd July 1914, and No. R. 499-508—Agri. 2-14-3, dated 21st July 1914, has been distributed among the Deputy Commissioners.

CAMP NO. R. 10-19—AGRI. 2-14-13, DATED MYSORE, 22ND SEPTEMBER 1914.

ORDER THEREON.—A further sum of Rs. 50,000 will be placed at the disposal of the Revenue Commissioner in addition to Rs. 2,00,000 already sanctioned for allotment to districts for grant of takavi loans in accordance with their requirements.

2. The Revenue Commissioner is requested to submit a consolidated report for the information of Government as to the extent to which the amounts allotted for each district have been utilised and the balance available and to make suitable arrangements for meeting further demands, if any, of particular districts by withdrawing all the extra allotments not likely to be utilised in any of the districts.

Letter No. 13438, dated the 29th June 1914, from the Conservator of Forests in Mysore, submitting his report* on the khedda operations of 1913-14.

*(Printed as accompaniment.)

No. R. 2248-51—FT. 12-13-51, DATED BANGALORE, 16TH SEPTEMBER 1914.

ORDER THEREON.—Government have perused with much interest and satisfaction the report submitted by Mr. Muthanna, on the results of the successful khedda operations conducted in the Kakankote forests on the occasion of the visit of His Excellency Lord Hardinge in November last.

2. Of the four drives, only the first was unsuccessful and the third was witnessed by His Excellency and the other guests of His Highness on the 9th November.

3. In all, 108 elephants were captured and a calf was born in captivity. Of these, 32 are said to have died, 7 were reserved for departmental purposes, 4 given away as presents and the remaining 66 were put up to sale.

4. The prices realised both individually and collectively were very favourable, the average for an animal being Rs. 1,905 against Rs. 1,762 on the last occasion.

5. It is necessary that a careful investigation should be made to ascertain the cause of the unusually large number of casualties with a view to prevent a recurrence in future operations.

6. A sum of Rs. 75,000 had been at first provided for these operations but this had to be eventually raised to Rs. 1,10,000 in view of the unexpectedly large capture. The actual expenditure amounted to Rs. 1,09,550 and the realizations to Rs. 1,35,635, leaving a surplus of Rs. 26,085. This calculation leaves out of account the sum of Rs. 26,500, the estimated value of elephants reserved for the Forest Department or given away as presents. The detailed accounts are overdue and should be expedited.

7. Government desire to place on record their high appreciation of the skill, bravery and resourcefulness displayed by the Forest officers and officials, who took part in these operations, which attracted general admiration. The thanks of Government will be conveyed to Rajakaryaprasakta Mr. M. Muthanna, Rai Bahadur, for the ability with which he organized the operations and brought them to a successful termination.

Government have noted with satisfaction the commendations passed by the Conservator on the ability and enthusiasm displayed by the following Forest Officers and Rangers, individually, in connection with the operations :—

Mr. B. Heera Singh, District Forest Officer.
" K. Muthiah, Game Preserves Officer.
" G. Krishna Murthi Naidu, Assistant Conservator of Forests.
" V. Ethirajalu Naidu, Sub-Assistant Conservator of Forests.
" L. P. Mascarenhas do do
" K. Revanna do do

Rangers.—
Mr. Mahomed Peer.
" B. V. Narasimha Iyengar.

The Conservator brings prominently to notice the skill and resourcefulness shown by Mr. Muthiah who, he says, had to bear the whole brunt of the work.

The Deputy Commissioner, Mr. A. Subramanya Iyer, and other Revenue Officers associated with him also rendered ungrudging help to make the operations a success.

Proceedings of the Government of His Highness the Maharaja of Mysore,

9. Government are also pleased to sanction the grant of rewards to the several subordinates and members of the khedda establishment as in the statement appended hereto.

D. M. NARASINGA RAO,

ACCOMPANIMENT.

REPORT ON THE KHEDDA OPERATIONS OF 1913-14.

Preliminary arrangements.

In April 1913, verbal instructions were received from the Dewan for making arrangements for a khedda elephant capture and big game shikar for the entertainment of his Excellency the viceroy on the occasion of his visit to the state in the following November and to submit a complete programme and estimate of cost therefor. Upon this, I caused an inspection to be made of the Chamarajnagar State Forest by the Game Preserves Officer with a view to ascertain whether that forest offered better prospects of a successful capture than Kakankote.

His report was to the effect that there were large herds there and that capture would be comparatively easier and less costly. As the locality where the Khedda was to be located is some 8 miles from the nearest road, and from a spectacular point of view, it compared unfavourably with Kakankote, I decided to confine the operation to Kakankote, the scene of our two previous successful operations, with the approval of the Dewan. Accordingly, steps were taken to put the kheddas in Kakankote in order and to repair all the forest roads. The former work was entrusted to Mr. K. Muthiah, Officer in charge of Game Preserves, and the latter to the District Forest Officer, Mysore, and his subordinates.

The amount of work to be done in connection with the khedda trenches was very heavy as over a great length they had collapsed and consequently necessitated revetting with stones. This work, as well as the scraping of the Kabbani river bank and clearing of the surround lines, he completed by the end of September in his usual thorough manner in the face of great difficulties caused by incessant rain and scarcity of labour. A very large quantity of materials for stockades and kraals had to be collected. These were felled in the District Forests and carted to site under the supervision of Mr. Ethirajalu Naidu, the Heggaddevankote Forest Sub-Division Officer.

A sum of Rs. 75,000 was provisionally sanctioned by Government for the whole operation as per estimates submitted by me. This was subsequently increased by Rs. 30,000.

2. *General plan of campaign.*—The Kakankote and Begur Forests lend themselves most admirably for khedda operations. They comprise an area of 200 square miles and abut on extensive stretches of British Forests on three sides. These forests are the natural habitat of the elephant; and the presence of large herds of elephants may always be counted upon except during the hot weather months when they migrate to cooler regions. The time selected for the capture was favourable, but it was apprehended that the operation would be interfered with by rains.

3. My original idea was to capture only 50 elephants in view of the almost insurmountable difficulty of feeding and maintaining a larger number; and this was to be effected in two drives; one previous to the arrival of the distinguished visitors and the other in their presence. This idea was kept up, but as per instructions conveyed by His Highness the Maharaja a third drive was organized.

In pursuance of my resolve to conduct the operation with the aid of local forest officers and subordinates and shikaries, for the first time in the history of our kheddas, the services of retired Field Inspector Oosumeah, though pressed on us with great persistence, were not availed of. Forty-one Chittagong mahouts were recruited to supplement our men, their services being indispensable for roping captives and for their subsequent feed and keep. This number was considerably smaller than on previous occasions.

In addition to 18 elephants belonging to the department, 12 elephants gracefully lent by His Highness the Maharaja were employed on the operation.

By the beginning of October all the arrangements for a drive were ready.

4. *The first Drive.*—A herd of about 25 animals which was under observation for two weeks previously was surrounded on the 3rd October, and was slowly shepherded to No. 1 khedda on the 7th. On reaching the khedda gate, they stood still and resisted all our efforts to force them into the stockade. Finally, taking advantage of a momentary lull caused by a drizzle of rain and consequent putting out of watch fires, they made good their escape at midnight, partly by breaking through the line of beaters and partly by forcing their way through a narrow passage between the trench and a clump of bamboos. This naturally caused great disappointment and depressed our spirits, but the failure taught us many valuable lessons of which full advantage was taken in subsequent drives.

While the events narrated above were in progress in Kakankote, news was brought that a big herd consisting of over 100 animals was sighted in the Begur Forest. Steps were promptly taken to surround it by summoning shikaries from all sides; and by the 7th October it was effectually surrounded.

5. *The second drive.*—Krubars who were out on tracking brought news on the 15th October that a herd was seen feeding at Nagarhole 8 miles from the khedda. Owing to the limited number of shikaries available at the time, all that we could do for the next two days was to post a line of beaters to bar their passage into the Coorg jungles. Help, however, soon arrived and by the 18th the herd was completely surrounded. During the next three days, efforts were made to drive it into No. 1 stockade, but in vain; and at last a desperate attempt was made on the 22nd to bring about a capture in the presence of His Highness the Yuvaraja who happened to visit the camp that day. The elephants were driven almost up to the mouth of the gate and although guns loaded with shot were freely fired at them, they resisted our efforts and stood in a cluster without budging. His Highness was therefore obliged to leave the camp disappointed at not witnessing the drive. The whole night was spent in vain attempts at impounding the herd and all hopes of capturing it till the next evening were abandoned. The whole staff and shikaries had become completely exhausted by the morning of the 23rd; and there was a serious danger of the herd breaking through. I went to the spot at early morning and noticed the prevailing gloom and despair. A happy idea immediately struck me and that was to employ the kumkies on the drive. This was opposed by all the Jamadars and Mahouts and even Mr. K. Muthiah seemed sceptical of the wisdom of such a novel mode of driving wild elephants. Their fear was that the wild ones would charge at the kumkies and put them and the shikaries to flight. I selected about 18 of the staunchest of the kumkies and the pluckiest Mahouts and had them ranged behind the line of beaters. The appearance of the kumkies had a magic effect on the herd for, the moment the former marched forward in a long line, the latter raced in a terror-stricken state into the stockade. This was at about 11 O' clock in the morning; and I believe such a drive was never brought about before. The herd consisted of 29 animals of which one was an enormous tusker rogue.

6. *The third drive.*—We next directed our attention to the third herd in the Begur Forest which, as already mentioned, consisted of more than 100 animals. It was surrounded by about 800 shikaries, the perimeter of the surround line being 21 miles. Mr. Krishnamurti Naidu was in charge of the operations here. In view of the impossibility of impounding so large a number of animals within the compass of about one-tenth of an acre (this being the space occupied by the roping stockade), it was decided to divide the herd into two sections. Its movements, therefore, were carefully watched, and as soon as it was noticed that it was feeding in two separate batches, a line of shikaries was thrown in between them. Our efforts were then concentrated on driving the nearer herd into Khedda No. 2. The first two days' efforts were unsuccessful, but we succeeded on the evening of the 29th with the aid of the kumkies. The number captured was 41.

7. *The fourth drive.*—The second section of the 3rd herd was reserved for the Viceregal entertainment which was to come off on the 9th November. Elaborate preparations had been made for this event. Days and nights were spent in perfecting arrangements to make the drive an unsurpassed success and impressive. The herd consisted of a large number of splendid tuskers, all in fine condition. The time appointed for the drive was 5-30 P.M. and punctual to a minute the herd was forced to make its way to the river bed with hundreds of howling shikaries at its heel and shortly afterwards, the Viceroy accompanied by His Highness the Maharaja and other distinguished guests together with their Highnesses the Maharanees arrived at the scene. The visitors had been asisgned places on the opposite bank of the river from which a distinct view of the herd could be obtained. The animals marched in a solid phalanx to this bank to escape through the "kadu" into the Kakankote Forest, but finding it barricaded kept restlessly moving about for quite half an hour. As it was getting dark, the services of kumkies, which were kept in readiness close by, were indented upon to drive them. Their appearance at once had the desired effect for, on sighting them, the wild animals raced in a panic-striken state in single file within a few yards of the Vicregal Party closely followed by the kumkies, into the temporary stockade built opposite Khedda No. 1.

An untoward event happened here, for, as soon as the herd entered the stockade and before the last gate was closed, it was scared away by some thoughtless clapping of hands in which some of the spectators indulged. The whole herd stampeded and retreated to the entrance gate where it stood in a seething mass making desperate attempts to break through it. Some managed to squeeze through the clump of bamboos standing by the side of the gate and made good their escape and some were trampled down and killed. This was a most anxious and critical moment: and but for the coolness and resource displayed by His Highness the Maharaja we should have lost the whole herd. Taking the situation at a glance, His Highness accompanied by the Vicregal party, left the stockade and returned to Karapur. They were followed immediately by the rest of the spectators. When silence was

Revenue (Forest), dated 16th September 1914.

thus restored at the precincts of the stockade, the herd retraced its steps into the enclosure where it was safely secured at 10 P.M. on the 9th November 1913. The number captured was 38.

This event concluded the driving operations, but roping still remained to be done.

8. *Roping.*—The roping of the herd impounded on the 9th November was conducted on the 10th. The leader of the herd, a magnificent tusker in the prime of life, was tackled first. He gave a good deal of trouble and after four hours of struggle, he was secured by heel and neck ropes and taken in custody of six kumkies to the kraal, followed by His Excellency the Viceroy, His Highness the Maharaja and other distinguished visitors. A special kraal had been built for him, but he soon made short work of it and he had, therefore, to be secured by heel and neck ropes. The roping was continued till late in the evening of the next day.

The total number of animals captured and roped was 38.

9. The roping of the heard impounded on the 23rd October was conducted on the 14th November and on the following day, in the presence of the august guests of His Highness. The number roped was 29.

10. The roping of the herd impounded on 29th October was conducted on the 23rd and 24th November in the presence of a large number of European and Indian guests. Their Highnesses the Maharaja, the Yuvaraja and the Maharanees were also present. The feature of this operation was the roping of two big tuskers in the open stockade, a feat which was much admired by the European guests, who in appreciation of the skill and pluck displayed by the mahouts presented them with 40 silver medals. The number of animals roped was 41.

11. *Kraaling, feed and keep of the captives.*—The total number of captives, inclusive of a calf born in captivity, was 109. Of these, 100 were kraaled and 9 tethered. They were watered profusely by a system of pipes worked by a steam engine, but their feed was a herculean task. There were, in all, 139 animals, including kumkies, to feed and maintain; and green fodder within a radius of 15 miles of the camp soon got exhausted and for weeks they were kept on short commons. Dry fodder in the form of straw and paddy was, however, available and the animals were kept up in a fair condition by supplementing green foddder with it.

12. The contingency of a fodder famine was not unanticipated; and we were, therefore, eager to dispose of the captives as early as possible and, with this view, their sale was widely advertized but we could sell only 38 animals by private bargain. An auction sale was advertized but this attracted no bidders. The reason assigned by the would-be purchasers for not coming forward was that the experience of the purchasers of the Shimoga captives was very bitter.

We succeeded later on in disposing of 25 female calves to an American Firm. Of the remaining animals, 28 were taken to Calicut and disposed of there on the 16th and 17th April 1914 at record prices.

13. In all, 32 animals, including two newly born calves, died, the heavy casualty being due partly to insufficient feeding, partly to the prolonged hot weather and partly to injuries received in the third stockade.

14. *Disposal of the captives.*—The surviving 77 animals were disposed of as follows:—

	Rs.
Sold to American Firm, 25 female calves ...	37,050
Sold to His Highness the Maharaja of Gwalior, 6 full grown animals	16,000
Sold by private bargain, 7	12,050
Sold by auction in Calicut, 25	58,350
Sold by private bargain in Calicut, three animals with defects	2,300
Presented to His Highness the Maharaja of Gwalior, three full grown animals, estimated value ...	8,500
Presented to the Najangud temple, one cow ...	2,000
Reserved for departmental purposes, seven, estimated value	16,000
Total ...	1,52,250

The highest price realized for a tusker at the Calicut auction sale was Rs. 4,350 which is a record price for a new untrained animal.

These prices compare as follows with those realized on the previous occasion :—

Year	Description	Average price, per animal	Increase
1	2	3	4
		Rs.	Rs.
Khedda of 1909-10 ...	Tuskers of and above 5 feet 6 inches in height	2,425	...

Maximum do for male calves	2,300
Minimum do do	1,200
Maximum do for grown-up cow ...	2,750
Minimum do do	1,600
Maximum do for female calves ...	1,750
Minimum do do	500

The above figures beat all previous record and are a reflex of the care and attention bestowed on the animals during captivity.

	Do anticipated future expenditure	523
	Total ...	1,03,296
	Do anticipated future expenditure	6,254
	Grand Total ...	1,09,550

The charges under item No. 10 "Feed and keep" have mounted up very high o the high prices that have had to be paid for green fodder and the prolonged period months) for which the animals were maintained.

Surplus.

The surplus amounts to Rs. 52,585 which is the highest on record.

Big Game Shooting.

17. His Excellency the Viceroy, who was out on shikar for several days in company with His Highness the Maharaja shot two full grown bull bisons in the Kalkere Forest and the Viceregal party bagged one tiger, one panther and one spotted deer.

The expenditure under this head amounted to Rs. 2,434.

Service of the Staff.

18. *Mr. K. Muthiah, Assistant Conservator of Forests.*—This officer had to bear the whole brunt of the work. His intimate knowledge of the habits and haunts of elephants and his skill and resources were of immense value to me. He was also responsible for the feed and keep of the captives. The successful sale at Calicut is entirely due to his tact and resources. From August 1913 to June 1914, he has been continuously employed on this special duty. I have great pleasure in bringing his services prominently to the notice of Government.

Mr. G. Krishnamurti Naidu, Assistant Conservator of Forests.—The services of this energetic officer were specially indented for from Kolar to share the burden of work with Mr. Muthiah. He remained in the Camp from 16th October to 2nd December. He was in entire charge of the big herd in the Begur Forest and the credit for dividing it into two separate batches, as already described, belongs entirely to him. He is one of our most capable and intelligent officers, and may fully be trusted to undertake any operation, however hazardous.

Mr. V. Ethirajulu Naidu, Sub-Assistant Conservator.—This officer was specially employed on the collection of stockade and kraal materials and on commissariat arrangements. He also lent cheerful help in dividing and patrolling.

Mr. L. P. Mascarenhas, Sub-Assistant Conservator.—This officer was summoned from Sagar to work as assistant to Mr. Muthiah. He rendered most cheerful work and was ever ready to make himself useful in every way. He was directly in charge of the second Kakankote herd; and the manner in which he marshalled the shikaries and brought about the drive is highly creditable to him.

Mr. K. Revannah, Sub-Assistant Conservator.—This is another of our highly capable officers. To him belongs the sole credit of surrounding the big herd in the Begur Forest. With a handful of kurubars, he succeeded in preventing the escape of the herd until help arrived. During the first week of the surround, there was incessant heavy rain and all communications between Begur and Kakankote had been cut off owing to high floods and breaking up of the rafts. In the face of these difficulties, he kept the shikaries fully supplied with provisions and in good humour.

All the subordinates have rendered conspicuous service with great zeal and energy.

21. I have great pleasure in recording my appreciation of the services rendered by Mr. B. Heerasingh, District Forest Officer, Mysore, Mr. K. Mylari Rao, Revenue Sub-Division Officer, and Mr. M. N. Srinivasa Iyengar, Amildar, Heggaddevankote Taluk.

22. Mr. Heerasingh attended to road works in the Begur Range and also to the organization of bison shikar. He also attended to patrolling work in Begur for a few days.

23. Mr. K. Mylari Rao was in charge of the arrangements for tiger shikar and performed his duties in a most efficient manner. I entertain a high regard for this capable and active officer.

24. Mr. Srinivasaiengar rendered us most useful service in supplying village shikaries and provisions. But for the prompt manner in which he met our requisitions, we should have been landed in great difficulties.

26. Finally, I have to express my gratitude to Mr. A. Subramania Iyer, Deputy Commissioner, Mysore, for the ready help he always rendered me, and the prompt response he gave to all my requisitions.

27. In conclusion, I have to express my sentiments of deep gratitude and devotion to His Highness the Maharaja for his graceful appreciation of my services, in token of which he presented me with a gold knobbed walking stick which I need hardly mention will be treasured as a priceless souvenir of the occasion.

28. In recognition of the distinguished services rendered by the Elephant Establishment and Shikaries, His Highness was pleased to present 9 gold and 28 silver bangles to representative men.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 7647—B. & R. 1240, dated 29th May 1914, from the Comptroller, submitting the Appropriation Report on the accounts of the Government of His Highness the Maharaja of Mysore for the year 1912-13.

No. FL. 1403-51—G. F. 179-13-1, DATED BANGALORE, 22ND SEPTEMBER 1914.

ORDER THEREON.—*Due date.*—The report which was due in the Secretariat by the 15th May 1914, was published by the Comptroller as a supplement to the *Mysore Gazette*, issued on the 28th May 1914, and submitted to Government on the 29th May 1914 or a fortnight later.

2. *Objectionable items.*—The attention of Treasury and Administrative Officers is invited to paras 16, 17 and 18 of the report. The analysis given in para 18 of objections according to the years to which they belong require particular notice, and active steps should be taken to clear off all objections outstanding for more than three years, before the close of the current official year. The Deputy Commissioners of Districts, Treasury Department, especially of the Mysore, Bangalore and Kolar Districts which show heavy outstandings, are requested to report to Government through the Comptroller, once a quarter, the progress made in this direction.

3. Government regret to note that there have been cases of delay in the submission of detailed bills and vouchers by controlling officers, and that the irregular practice of drawing money from the treasury in excess of actual requirements, or when not actually required for immediate payment continued in some offices. The importance of following strictly the rules prescribed in the Civil Account Code, and the Mysore Treasury Manual, and the serious consequences of a violation of these rules in any respect, are clearly made out by the specific instances mentioned in paragraphs 21 and 22 of the Comptroller's report. The attention of Heads of Departments is therefore again invited to Government Proceedings No. Fl. 1156-204—G. F. 2-13-3, dated the 23rd August 1913, and they are requested to strictly adhere to the rules on the subject.

4. From the manner in which some of the cases mentioned in paragraphs 21 and 22 of the report are explained by the disbursing officers responsible for the control of the items of expenditure in question, Government are led to believe that these officers do not seem to sufficiently realise their personal responsibility in respect of losses to Government, in consequence of neglect to adhere to the rules. The attention of all disbursing and countersigning officers is therefore drawn to the principles laid down in Article 13 of the Civil Account Code and they are requested to scrutinize all bills to be cashed at the treasuries, and to see that all money drawn from the treasury is properly utilised.

5. The abstract of public works objection items given in paragraphs 24 and 25 of the report shows that there were many items of work involving large expenditure without any estimate or appropriation, and many others in excess of sanctioned estimates and appropriations. The Chief Engineer and Secretary to Government in the Public Works Department is requested to issue needful orders to prevent the recurrence of objectionable outlay of the kind noticed in the report.

6. *Administrative Audit.*—The attention of all controlling officers is invited to paragraph 23 of the report and to paragraph 4 of the Government Order dated 23rd August 1913, referred to above. It is hoped that every endeavour will be made to make their audit more effective and real.

7. Under Government Order No. Fl. 1150-1192—18-1901-2, dated the 7th February 1903, all Heads of Departments should surrender grants not likely to be spent, to Government not later than the 1st May of each year. But only few departments have done so, in spite of reminders issued from the Secretariat.

Proceedings of the Government of His Highness the Maharaja of Mysore,

In the marginally noted heads no amounts were surrendered though there were large lapses at the close of the year.

	Lapses.
1. Land Revenue	1·12 lakhs
2. Medical	·68
3. Agricultural Department ...	·45
4. Economic Conference ...	·32
5. Reception and entertainment of guests ...	·23

In other cases surrenders of small amounts were made, while the amounts actually allowed to lapse were much greater.

Department	Amount of lapse	Amount surrendered
Education ...	300	·83
Army ...	·87	·16

From the above it is clear that Heads of Departments do not keep sufficient watch over their expenditure, and Government take this opportunity of reminding them that watching of expenditure and regulating it strictly according to the budget programme is one of the most important duties of these officers. Grants which are either not required, or are not likely to be spent, should be promptly surrendered, so as to enable Government to utilise them, if need be, for demands that cannot be put off till the commencement of the next official year.

8. *Appropriation audit.*—The expenditure during the year exceeded the budget grants therefor by about Rs. 2,81,000. Part of this excess was met by reappropriation or subsequent sanctions. Expenditure amounting to about Rs. 2,45,000 not covered by either additional grants or reappropriations and requiring sanction is shown in the subjoined statement. The final passing in audit of the excesses amounting to Rs. 2,45,000 is hereby sanctioned. It is, however, noted that some of the exeesses could have been prevented if the officers concerned had applied in time for reappropriation of funds.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT.
Dated 22nd September 1914.

CIRCULAR ORDER.

In connection with the travelling allowance bill of an officer submitted by the Head of a Department, for sanction under Article 5, Civil Account Code, a casual enquiry had to be made as to the object of transfer of the officer the charges of which formed one of the items in the travelling allowance bill. The Head of the Department, instead of re-submitting the bill with the information called for, disallowed the claim himself and reported this action of his for the information of Government. From this, Government observe that there was want of scrutiny in the first instance and that the mistake in the admission of the claim was only brought home to the Head of the Department on the enquiry instituted by Government.

2. It may be noted that the case in question was not one which admitted of an objection being raised by the Audit Office. The claim would have been passed in audit unchallenged on the strength of the countersignature of the controlling officer concerned. It was on this account all the more necessary that the claim should have undergone thorough check at the hands of the countersigning officer.

3. Under the circumstances, Government deem it necessary to invite the attention of all countersigning and controlling officers to the provisions of Chapter XXXVII of the Mysore Service Regulations, specifying the duties of countersigning officers, and to request that all claims countersigned by them may receive most careful scrutiny. Instances quoted in paragraphs 18 (iii) of the Appropriation Report for 1911-12 and paras 22 (*c*) of the same report for 1912-13 clearly show that these duties do not at present receive adequate attention.

4. Government feel constrained to observe that in future serious notice will be taken of all instances in which countersigning officers fail to exercise the control expected of them.

J. S. CHAKRAVARTI,
Financial Secretary to Government.

Letter No. 470, dated 28th May 1914, from the District Magistrate, Chitaldrug, reporting the detention of one Lakshmappa, after the expiration of the sentence of imprisonment passed upon him.

2. Correspondence ending with letter No. 71, dated 4th August 1914, from the same officer, submitting papers connected with the case.

No. J. 772-781—CTS. 7-14-4, DATED BANGALORE, THE 16TH SEPTEMBER 1914.

ORDER THEREON.—In Criminal Case No. 42—12-13 on the file of the Assistant Commissioner and 1st Class Magistrate, Davangere Sub-Division, Lakshmappa of Kysapur village was sentenced, on 27th November 1913, to rigorous imprisonment for four months and to pay a fine of Rs. 50 or in default to suffer rigorous imprisonment for one month. The fine was recovered from the father of the prisoner on 18th March 1914. The prisoner ought to have been released on the 26th March 1914, but as the intimation of the recovery of the fine was received in the Central Jail, Bangalore, the place of his incarceration only on the 9th April 1914, there was an over-detention for 14 days.

2. From the perusal of the correspondence, it is seen that the fine-warrant, with a certificate of the recovery of the fine, was received in the office of the District Superintendent of Police, Chitaldrug, on the 20th March 1914. It was forwarded for signature to the camp of Mr. Machiah, the Superintendent, and in the usual course it must have been returned to the District Superintendent of Police's Office on the 22nd or 23rd March. On the 26th March the warrant, it is stated, was taken to the Store Jamadar by writer constable Mahomed Kasim, who not finding the former, went home on account of fever with the permission of the Head Munshi of the District Superintendent of Police's Office. The warrant was handed over to the Store Jamadar on the 31st March and was finally received in the office of the convicting Magistrate on the 5th April 1914, who intimated the recovery of the fine to the Superintendent of the Central Jail on the 8th idem.

3. The delay in the Magistrate's Office is due to the warrant having been in transmission between Holalkere and Harihar as that officer was touring in connection with the Harihar Cattle Show and Exhibition. The explanations furnished by the officials of the District Superintendent of Police's Office are not at all satisfactory. The Head Munshi knows nothing definite as to when the warrant, after execution was sent from the office or when it was received back from the District Superintendent. No explanation has been given as to why no steps were taken between the 23rd March and 26th March.

4. The Head Munshi and the constable who handled the paper are apparently to blame for its detention. The latter perhaps may not have realised the urgency of the matter but the Head Munshi can have no such excuse. Government consider that a warning is hardly sufficient for such carelessness as has occurred in the case. The District Magistrate is requested to further enquire into the matter and award adequate punishment to the parties at fault. A report should be made to Government of the ultimate disposal of the case.

Government observe that there should be a standing order in the Police Department requiring the immediate communication of the recovery of fines to the Magistrate or Court by the Police. It is also necessary for officers who go on circuit to make arrangements for such papers (which merely require transmission) being despatched from headquarters without being sent to camp.

ORDER THEREON.—Recorded.

D. M. NARASINGA RAO,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Inspector-General of Police in Mysore.
The District Magistrates, of Districts.

Report on the working of the Mysore Game and Fish Preservation Regulation and the rules framed thereunder for the calendar year 1913.

1. The total number of licenses issued under the Regulation during the year was 250 as against 265 in the previous year, showing a decrease of 15 licenses. The decrease is noticeable in all the districts, excepting in those of Mysore and Shimoga, where there was some increase, while in the Hassan District the number was the same in both the years. None of the District Magistrates gives any explanation for the decrease, except that of Kolar, who considers the fall to be due to scarcity of Game in the district, owing to unfavourable season.

2. These 250 licenses consisted of 187 district licenses, 30 district licenses including State Forests, 15 provincial licenses and 18 special licenses to agriculturists for scaring away wild animals destroying crops; 126 of these licenses had been issued to Europeans or Eurasians and the rest to others.

3. The fee realized during the year was Rs. 1,796 as against Rs. 1,718-8-0 in 1912.

4. The following statement shows the districtwar details of licenses issued and the fees collected :—

No. J. 882-3—Pol. 195-13-2, dated Bangalore, 28th September 1914.

ORDER THEREON.—The proposal to open a hostel in connection with the Police Training School commends itself to Government. They are accordingly pleased to sanction the same as an experimental measure for a period of three years at an initial cost of Rs. 1,000 for vessels and an annual recurring expenditure of Rs. 1,200 for rent for buildings.

2. The proposals regarding shooting range, library and sports are also approved.

3. As regards the appointment of a full time principal for the school, Government consider that it is sufficient to place it under the charge of a Senior Inspector on a pay of Rs. 200 per mensem instead of a gazetted officer of the rank of an Assistant Commissioner as proposed by the Inspector-General of Police.

4. Government regret that sanction cannot at present be accorded to the other proposals of the Inspector-General of Police relating to the school.

5. The extra expenditure now sanctioned is shown in the statement appended to these proceedings.

6. Separate orders will issue regarding the rules about inspection work submitted by the Inspector-General of Police.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Annexure.

Letter No. C. 244, dated the 1st April 1914, from C. Srikantesvara Aiyar, Esq., B.A., B.L., Inspector-General of Police in Mysore, to K. R. Sreenivasiengar, Esq., M.A., Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to para 6 of Government Proceedings No. J. 1085-94—Police 256-12-5, dated the 25th September 1913, requesting the submission of rough outlines of a scheme for providing suitable instruction in the Police Training School, I have the honor to state that the curriculum of studies now in force in the school includes practically all the subjects except equitation which the Indian Police Commission have recommended and which have since been adopted by the several Police Administrations in British India. The course of instruction for Inspectors and Station House Officers in the Training School will extend over a period of one year and comprise the following subjects :—

E. Use of the powers of observation.

F. Conduct of the Police towards the public.

3. With the kind permission of the Inspector-General of Police, Madras, I visited the Police Training School and the Central Recruits' School for constables at Vellore, and had occasion to discuss the various aspects of the subject with the local authorities who very courteously showed me round and furnished me all information. Without reiterating what has already been said by my esteemed friend and predecessor the late Sirdar Dalavoy Devaraj Urs in paras 2 to 7 of his letter No. 6454-615, dated the 21st April 1911, to the Government, I would just bring to the prominent notice of Government a most important and striking feature prevailing in the Vellore Schools and which, I learn, has also been considered a *sine qua non* and been brought to existence in similar institutions in the Punjab, Bengal, Central Provinces, Burma, etc., the establishment and maintenance of hostels on the most up-to-date lines in perfectly healthy surroundings nearest the schools and kept scrupulously clean, and the subjection of the recruits to a very close supervision of the teaching staff, and the enforcement of strict disciplinary measures not only within the class room but also outside it, so as to exercise a wholesome influence on the students, whether it be in the dining hall or the play ground or the reading room, which are also provided free, and in which every recruit is bound to take part. In the absence of such arrangements for providing the men with healthy lodgings, simple but homely food, moral training and good recreation, etc., the recruits, a vast majority of whom are utter strangers to civilization hailing from distant villages and out of the way places, ill-equipped and uneducated, would feel the absence of a homely or official control to regulate their conduct and morals at the plastic period of their official career, and naturally fall victims to the inferior and unwholesome environments and the guiles of local bad characters, and thus defeat the very object in view, of improving the morale and tone of the force and its efficiency rather than further it. If barracks, healthy quarters, games and pastimes agreeable surroundings, good, social and moral influences emanating from men of weight and position are all needed to prevent the soldier from degenerating, the same are all the more necessary for moulding the character of men in a quasi-military body who have to combine discretion, as well, with adherence to strict obedience to orders in the discharge of their highly responsible and onerous duties of maintaining social order and public tranquillity. It is also most essential that only reliable men of trustworthy character, and that too from the better classes of society, should be enlisted into the ranks and given all facilities and comforts to make them love the Department and create an *espirit de corps* so as to look upon it as one of the most honored and esteemed branches of the public service which so nearly concerns the life of the people. To achieve such an end, all possible means to induce the recruits to take kindly to the disciplinary training and rigorous control have to be provided. It will therefore be necessary to have suitable accommodation for boarding about 150 men with separate messing arrangements for the vegetarians and the non-vegetarians, and also free quarters for the whole of the teaching staff, so as to enable them to exercise effective supervision over the students. In fact, Government have long recognised these necessities of organizing residential schools and had, in Proceedings No. J. 568-70—Police 165-07-2, dated the 21st August 1908, actually called for plans and estimates for the construction of a hostel and suitable quarters for the teaching staff. But owing to demands from other Departments and want of sufficient allotments for Police requisitions, the matter has unfortunately been allowed to remain in abeyance hitherto, with such great detriment to service. As the opening of the Central Recruits' School, however, cannot be put off any longer till the construction of the needful buildings, which may take time, some four or more buildings close to the school to accommodate about 100 or 120 constables and 20 officers may be rented at a monthly cost of say Rs. 200 and the work commenced from the beginning of next official year, 1st July 1914, when the present session comes to a close. An initial cost of Rs. 1,000 would also be required for the purchase of vessels and other necessary equipment, to start with.

4. Another salient point which has received foremost recognition elsewhere and which we have to consider in earnest is the necessity for a whole timed gazetted officer being placed in charge of the school. At present, the Assistant to the Inspector-General of Police is also *ex-officio* the Principal of the School, and as has been already explained in para 6 of my letter No. C. 121 of the 20th June 1913, it is practically impossible for him to exercise any efficient control over the school as he cannot be present on the parade ground or take any active part in lecturing, etc. Official correspondence, preparation of salary and batta bills, leave and punishment rolls, recovery of advances, distribution and supervision of work among the lecturers, testing the efficiency and progress of the students as they advance in their class work, etc., all these involve the best energies of a whole timed officer from 4 to 5 hours every day, besides the requisite time he has to spend on the parade ground every morning; and I need hardly say that so much cannot be expected from one who is already over-taxed with the ever increasing heavy work of one of the important and largest headquarter offices. To maintain the tone of the institution, the only course open would be to appoint, as in the neighbouring institutions in British India, a whole timed gazetted officer of the rank of a Superintendent of Police with special aptitude for such work, as Principal of the School, giving him also a staff allowance of Rs. 100 per mensem, as an inducement and emulation to hard work and to prevent the officer seeking a transfer on account of the cheaper living in the districts or elsewhere.

Proceedings of the Government of His Highness the Maharaja of Mysore,

5. *Equitation.*—No provision has till now been made for the training of the Police officers in equitation though its necessity and utility are so well recognised and emphasized. Adequate provision has been made for such a training in the British Indian Police School and the advantages resulting therefrom to enhance the efficiency and the prestige of the Department are so obvious. Sanction may therefore be accorded for an initial expenditure of Rs. 2,000 for the purchase of, say 4 horses, etc., and a recurring annual grant of Rs. 2,160 for their upkeep, as detailed below :—

I.		Rs.
(i)	To purchasing 4 horses	1,600
(ii)	To purchasing 4 sets of saddles at Rs. 50 each ...	200
(iii)	To purchasing 4 sets of stable gear complete at Rs. 25 each ...	100
(iv)	Unforeseen or miscellaneous charges	100
	Total ...	2,000

II. Annual recurring charges for—		Rs.
(i)	Feeding 4 horses including grass, gram, bran, oats, lucern, hod straw, etc.	80
(ii)	Four syces at Rs. 9 each	36
(iii)	Farrier and veterinary charges	10
(iv)	Riding master a military officer being lent therefor allowance ..	35
(v)	Repair, renewals and other unforeseen charges ...	3
(iv)	Stabling for 4 horses at Rs. 4 each	16
	Total ...	180

per mensem or Rs. 2,160 per annum.

6. Most of our Police officers and men have had no training in musketry. It is very essential that plenty of practice both with ball and blank ammunition should be given to every recruit for which purpose a shooting range has to be fitted up. Government had * sanctioned a range near Pinya, but the villagers objecting a new site has to be selected, with an initial cost of about Rs. 500 and an annual grant of Rs. 100 for the purpose.

* J. 2613-1—Police 11-06-13, dated 4th March 1909.

7. Another necessary adjunct to any well organized institution is the maintenance of a good reading room and a library, to promote the mental, moral and social attainments of its members. Government sanctioned in Proceedings No. J. 909, dated the 19th September 1908, the purchase of books to the extent of Rs. 900 but there have been no additions since. The Madras Government have provided for an annual grant of Rs. 750 for the maintenance of the library in the Vellore Police Training School. A similar annual grant to our school would tend to its library being kept in a decent state. A small grant of Rs. 150 per annum for the purchase of books, periodicals and magazines dealing with Law, Police and kindred subjects may be made.

8. A further valuable addition to the school is the opening of a Criminal Museum, the object being to give the students an ocular demonstration of the instruments and weapons, etc., used by the criminals in the commission of offences both against person and property, the different kinds of poisons usually administered by professional poisoners, the several stages and different degrees of perfection attained by the utterers of counterfeit coins and forged notes, the mould and instruments used by them in the manufacture thereof, the dress, garb, etc., of the criminal tribes who have to be brought under surveillance and the disguise, etc., generally adopted by cheats and swindlers who go about the country like so many bairagis, sadhus, mendicants, etc. The usefulness of such a museum as an annex to the school is unquestionable, and an annual grant of Rs. 100 may be sanctioned for the purpose.

9. With such provision for improving the intellect of the Police Force some arrangements have to be made for physical development, as well, of the recruits, simultaneously with the development of their mind. We require not only intelligent and good men, but also healthy, strong, sturdy and stalwart men in the force, who could at times handle the most desparate criminals with agility, firmness and grip. The men have to be put through all manly games. The play ground is the place where the angularities of a raw recruit are rubbed off, with a feeling of appreciation for the nobler side in each other, thereby promoting the *espirit de corps* of the force. In Vellore as in other schools, cricket, foot-ball, tennis, and hockey are the games generally resorted to by the students in addition to the gymnasium and jui jutsu ; and as the students are generally too poor to make any contributions therefor, the Madras Government have sanctioned an annual grant of Rs. 1,000 for the purpose. On previous occasions when the Police sports were held here, the funds had to be collected by calling in subscriptions from willing and unwilling people through the personal exertions and influence of officers in position. Such a course of action, so compromising at times, cannot be repeated, and it will be due to the status of the school to have an annual provision of at least Rs. 300 for games and sports.

10. Every constable now attending the school at Bangalore gets a house rent of Rs. 2 per mensem. Considering the costliness of living in Bangalore and the inadequate pay of a constable who, while under training, has not only to maintain himself but also his family in his own village, the house rent now being given may be treated as a local allowance to the constables under training, in addition to the free quarters proposed to be provided for in the hostel. This concession will enable the constables to partake of a uniform kind of meal within their slender means.

Judicial and Legislative (Police) dated 28th September 1914.

11. The teaching staff who are generally drawn from the regular line of Inspectors should also be given some allowance to compensate them for the heavy expenditure they have to incur in a costly place like Bangalore, and I therefore recommend that they be given, in addition to the horse allowance, a house rent on the scale given below, till official quarters are ready for them :—

Three Inspectors Rs. 15 per mensem each.
One Sub-Inspector ,, 10 do
One Jamadar ,, 3 do

12. For the establishment of the Police Training School on principles indicated above, with hostel, quarters for the staff, lecture rooms, office, library, play ground, etc., a large area of land, which would also admit of an extensive plain for a parade ground and a ride, will be required. It is further essential in the interests of discipline that accommodation should also be provided for the whole of the Provincial Special Reserve Police Force, only 50 of whom are now provided with quarters in the fort, the rest being scattered over the city and the Civil and Military Station, with great hardship to the men and such detriment to the efficiency of the force, as has been frequently brought to the notice of Government. My office is now located in a private building which is only fit for a small dwelling house rather than a big office. The proposals for the construction of my office and the Provincial Special Reserve Police Lines, etc., have been pending consideration of Government for some years, and I shall now be approaching them for early orders on these matters in due course. Meanwhile, the President of the City Municipality, Dewan Bahadur K. P. Puttanna Chetty and I have been looking into, in connection with the City Improvement Scheme, where and how best to reserve a large area of land for such Police requirements, to be taken up as funds permit.

13. The full equipment of the school, as herein proposed involves an expenditure, which the Government may, perhaps, not be in a position to meet immediately, the investment on buildings alone being rather heavy. But to enable us to start the school on the improved lines, as sanctioned in Government Proceedings No. J. 1085-91—Police 256-12-5, dated the 25th September 1913, a sum of at least Rs. 3,800 per annum, which after all is only Rs. 325 per mensem more than what has been provided for in the said proceedings, would be required as shown below, besides Rs. 1,500 for the initial expenses :—

Items	Initial expenditure	Recurring annual expenditure
	Rs.	Rs.
1. Hostel charges	1,000	2,400
2. Shooting range	500	100
3. Library and reading room	.....	150
4. Criminal museum	.....	100
5. Games and Sports	.....	300
6. House Rent to Instructors	.....	696
Total ...	1,500	3,746
7. (i) Pay of Principal, of the rank of a Superintendent of Police at Rs. 250 to Rs. 450, or average Rs. 350 per mensem.	.....	4,200
(ii) Local allowance to do Rs. 100 per mensem ...	.....	1,200
8. (i) Purchase of horses, saddlery, etc.	2,000	.....
(ii) Up-keep of horses, etc., Rs. 180 per mensem ...	.....	2,160
Grand Total ...	3,500	11,306

This small extra expenditure of Rs. 325 per mensem for the start is, in consideration of the advantages to be derived, by no means excessive and I accordingly request that you may be so good as to obtain the early sanction of Government therefor, so as to enable me to instruct the district authorities, in time, to select the recruits for the school, which I intend opening on 1st July 1914.

14. In conclusion I may be permitted to add that any attempt to improve the Police Administration will be lacking in the essentials requisite for full measure of success, unless all the branches of the force are simultaneously improved. Our endeavours to train and improve the constables and upper subordinates would be greatly frustrated, if sufficient care is not taken in the selection and training of the gazetted officers, who are to guide and regulate the work in the districts. Only the most capable and intelligent officers from among the men intimately connected with the department and who have mastered the details of the work or who have by temperment and qualifications special aptitude for the same have to be selected for the Police service, which it is also essential to constitute into a separate cadre. I am addressing the Government separately on this subject.

15. I herewith submit, as called for by Government, an extract from the draft Police Manual containing orders to be issued regarding the systematic inspections of stations by all grades of Police Officers. Inspecting Officers are required to go exhaustively into all the details on the working of a Police St[illegible] in the prescribed records for the information of the higher authoriti

The rules under the Local Boards Regulation issued with Notification No. 30—Legis. 4-03, dated the 9th September 1903, as amended from time to time.

(2) Letter No. 6701—L. A. D. 846, dated the 10th April 1913, from the Comptroller suggesting certain amendments to the rules read above.

No. 2361-411—L. B. 265-12-3, DATED BANGALORE, 2ND SEPTEMBER 1914.

ORDER THEREON.—The Comptroller has suggested certain amendments to the existing rules framed under the Local Boards Regulation in consequence of the introduction of Local Audit. He has also proposed that the previous sanction of Government required under Rule 137 in the case of refunds may be done away with. The Comptroller's proposals are generally approved.

2. It is also found expedient, in this connection, to make a few alterations in the rest of the existing rules, the more important of them being as follow :—

PART II. *Constitution of Local Boards.*

(i) Rule 4 is deleted as being no longer necessary.

(ii) The power of appointing non-official members to Union Panchayats is delegated to Deputy Commissioners by a suitable modification of Rule 6.

(iii) Rule 7 is so amended as to permit every Municipal Board within the area of the Taluk to return a representative to the Taluk Board.

PART IV.—*District Fund Property and Income.*

(iv) The last clause of Rule 44 which is rendered superfluous by the abolition of halat on supari is deleted.

(v) A new clause enjoining the issue of printed receipts for taxes and other dues collected is added to Rule 73.

(vi) Rule 74 is recast to convey clear instructions as to how the surplus sale proceeds, etc., should be dealt with in the District Fund Accounts.

3. The other changes are of a minor character and call for no remarks.

4. The revised rules will be published in the *Mysore Gazette*.

No. 2424-34—ML. 386-12-23, DATED BANGALORE, 4TH SEPTEMBER 1914.

ORDER THEREON.—Under the rules issued in January 1905, cloth on which octroi duty is levied in one Municipality is exempt from payment of octroi duty, if it is imported into another Municipality within three months from the date of such levy. In the Representative Assembly Meetings of 1912 and 1913, it has been urged that the time limit now provided is insufficient, and that cloth on which octroi has been once levied should be exempted from payment of any duty subsequently.

2. The Municipal bodies consulted, while recognising the undesirability of levying octroi on cloth more than once are not generally in favor of abolishing the time limit altogether, as such a concession is in their opinion likely to affect the Municipal revenues in more ways than one. Government are therefore of the opinion that no alteration in the existing orders is called for.

No. 2287-90—MED. 34-13-8, DATED BANGALORE, 1ST SEPTEMBER 1914.

ORDER THEREON.—Recorded.

2. There was a delay of more than a month and a half in the submission of the report which, it is hoped, will be avoided in future.

3. The working of the Special Hospitals during the year under report was on the whole satisfactory. There has been a marked increase in the number of patients treated in the Ophthalmic Hospital since its removal to the new building on the 31st January 1913 which testifies to the growing usefulness of the institution.

4. The consideration of the question of constructing a new building for the Lunatic Asylum, Bangalore, referred to in paragraph 42 of the report, has to be deferred until funds can be made available for the work.

The Report on the working of the Vaccination Department in the State and of the Vaccine Institute, Bangalore, for the calendar year 1913, received from the Sanitary Commissioner with his letter No. 5668, dated the 27th June 1914.

No. 2668—SAN. 9-14-6, DATED BANGALORE, 14TH SEPTEMBER 1914.

ORDER THEREON.—*Result of vaccination during the year.*—The number of persons vaccinated during the year was 108,632 as against 90,118 in 1912, showing an increase of 18,514. The number of successful cases under primary and revaccination was 91,835 and 5,230 against 78,085 and 2,117 respectively in 1912. The number of children under one year of age successfully vaccinated during the year was 20,915 as against 17,736 in 1912. Government observe that though the amount of work done is yearly increasing, the percentage of infants protected by successful vaccination is still very small being only 19 per cent, or less than one-fifth of the total number of infants below one year.

2. *Death-rate from small-pox.*—During the year there were 8,722 deaths from small-pox against 1,854 in the previous year, the ratio per thousand of population being 1·53 as against 0·32 in 1912. The disease was reported from all the districts. The mortality was high in the Chitaldrug District, *viz.*, 3,002. The Sanitary Commissioner is requested to make suitable arrangements for the vaccination of a larger number of unprotected children in towns and villages in future in order to reduce the virulence of the disease.

3. *Inspection.*—There was a fall in the number of cases of vaccination inspected by the Deputy Inspectors of Vaccination during the year 1913, as compared with 1912. Government agree with the Sanitary Commissioner that the verification of cases with reference to the returns furnished by the vaccinators is of much importance and greater attention to this work should be insisted upon hereafter.

4. *Compulsory vaccination.*—During the year under report vaccination was declared compulsory in the Municipalities of Tumkur, Yedahalli and Jagalur.

5. *Cost of the department.*—The cost of the department, excluding the Vaccine Institute, was slightly more than in the previous year, *viz.*, Rs. 23,031 as against Rs. 23,016. The cost of each successful case of vaccination was annas 4 and pies 5, as compared with 4 annas 1 pie, in the Madras Presidency, during the year 1912-13.

6. *Future improvements in the manufacture of lymph.*—With reference to the remarks made by the Sanitary Commissioner in para 20 of his report, his attention is invited to Government Proceedings No. 92-4—San. 108-12-7, dated the 3rd July 1914, approving generally the recommendations made by the Committee appointed for testing the purity of the vaccine lymph manufactured and used in the State and he is requested to give effect to the several proposals made by the Committee.

7. *General remarks.*—Government are glad to note that the working of the Vaccine Institute, during the year was satisfactory.

No. G. 3069-71—G. M. 314-12-2, DATED BANGALORE, 16TH SEPTEMBER 1914.

ORDER THEREON.—After a careful consideration of the various proposals submitted by the Superintendent, Government Gardens, on the subject of improving the Lal-Bagh, Government have decided to sanction a lump sum grant of Rs. 50,000 to meet the cost of special improvements to be carried out during the next three years. The total cost of the improvements should not exceed in the aggregate the amount now provided. The Superintendent, Government Gardens, is requested to submit revised proposals for a complete and detailed scheme of improvements which may be undertaken at a total cost of Rs. 50,000 and an estimate of the probable expenditure to be provided for during each year of the triennium. Such of the items of work as may be approved by Government should be carried out rapidly within the limits of the budget grants to be provided therefor, and no capital expenditure beyond the amount provided for the year should be incurred during the period.

2. Arrangements should be made to have a private restaurant established in the Lal-Bagh, providing Indian refreshments also.

3. Government are also pleased to direct that, out of the additional hands sanctioned for the Lal-Bagh in the Government Order of the 7th November 1908, read above, the following be made permanent, and the rest continued on a temporary footing:—

Letter No. 13274—688, dated 13th April 1914, from the Inspector-General of Education requesting that he may be authorised to sanction original works in his department up to a limit of Rs. 1,000 in each case.

No. 291-302—EDN. 289-13, DATED BANGALORE, 16TH SEPTEMBER 1914.

ORDER THEREON.—The Inspector-General of Education has power to sanction works up to Rs. 250 without reference to Government. He requests that the limit may be raised to Rs. 1,000, and states that the works sanctioned by him will be generally entrusted to local contractors under the supervision of either Educational or Revenue officers. He further explains that as type design No. 1 is simple there would be little or no difficulty in getting the buildings constructed by other than the Public Works Department agency, and that his proposal would further facilitate his persuading the people to contribute more largely towards the cost of school buildings.

2. In view of the special circumstances explained, and in view also of the large educational developments that have been recently sanctioned, Government are pleased to empower the Inspector-General of Education up to the end of the current official year to sanction original works in respect of school buildings up to the estimated value of Rs. 1,000 in each case.

Government Order No. 1463—68, dated the 19th September 1905, sanctioning among other things a grant-in-aid of Rs. 50 per month from State Revenues to the orphange attached to the Srinivasa Mandiram at Bangalore.

2. Correspondence ending with letter dated the 14th May 1914, from Mr. A. Gopalacharlu, Manager, Srinivasa Mandiram and Charities, reporting that 150 boys have in all been sent out from the orphange with qualifications enabling them to earn an honest livelihood and expressing his readiness to take advantage of the instructions of the Inspector-General of Education in this direction.

No. 635-8—Muz. 356-13-4, dated Bangalore, 15th September 1914.

ORDER THEREON.—Mr. Gopalacharlu represents that the grant of Rs. 50 sanctioned in the order read above is inadequate to the growing needs of the orphanage both in view of the steady increase in the number of orphans admitted and of the rise in the prices of food-stuffs. The orphanage has on its roll at present 23 orphans who are given instruction in carpentry and rattan work in addition to general education.

2. A building providing suitable accommodation to the orphans has recently been constructed and it is reported that proper attention is being given by the Manager to the health and training of the orphans. Under the circumstances now represented, the Government consider that the existing grant of Rs. 50 a month is inadequate and are therefore pleased to raise it to Rs. 100 per month, the charge being met from the State Revenues as before.

This enhanced grant will be in force for a period of five years and will take effect from the 1st of July 1914, Government reserving to themselves the right to lessen the grant if there should be any substantial decrease in the number of orphans maintained in the orphanage. The amount will be payable in the Bangalore District Treasury on bills presented by Mr. Gopalacharlu, duly countersigned by the Secretary to Government in the Muzrai Department.

3. Arrangements should be made by Mr. Gopalacharlu to the satisfaction of the Inspector-General of Education to give the orphans a vocational training, so as to enable them to earn a livelihood after they leave the orphanage.

4. The attention of Mr. Gopalacharlu is invited to the last para of Government Order No. 80-2—M F. 456-11-6, dated 24th July 1912, and he is requested to take early steps to place the orphanage on an organized footing and to submit proposals for the appointment of a Board of Trustees for the management of the institution.

5. Accounts of the expenditure of the Government grant should be properly maintained and a brief annual report furnished to Government about the work of the orphanage.

Subject No. 303 brought forward at the Dasara Representative Assembly of 1910 by Mr. A. Anniah Pandit, member for the Mysore District Board, regarding facilities being afforded to Sevarthadars for ascertaining that the sevas instituted by them are properly conducted.

Correspondence ending with letter No. 286, dated the 26th January 1914, from the Deputy Commissioner, Mysore District, reporting that Sevarthadars have access to the accounts of the sevas maintained in temples, but that no systematic check or control is exercised over the accounts, etc.

No. 651-60—MUZ. 552-10-15, DATED BANGALORE, 17TH SEPTEMBER 1914.

ORDER THEREON.—Government, on a full consideration of all the facts, are of opinion that it is obviously inconvenient to accept responsibility for sevas which are not of public interest and which are not of a sufficient value. They are pleased to prescribe that accounts in the appended form should be kept for all sevas of the value of Rs. 50 and upwards. A charge of 6¼ per cent or one anna in the rupee for the maintenance of such accounts should be levied and will not be paid to the temple servants without the special orders of Government in each case.

2. In cases of sevas less than Rs. 50 in value, the donors should make their own arrangements to appoint their representatives to manage the seva, and to see that it is properly carried out.

3. Unconditional grants for general services in temples are however not affected by this order.
